

for the
Washington State
House of Representatives

Washington state's Environmental Priorities Coalition (EPC) is made up of more than twenty-five leading environmental groups who lobby in Olympia on a regular basis and organize to advance a set of priority bills each legislative session. The EPC established three to be its highest priorities for the 2024 Legislative Session, and they are listed [here](#). As in the past, we will send you this weekly "Hot List" to assist you in your efforts to promote this important agenda.

Please feel free to contact Clifford Traisman (Washington Conservation Action, previously known as Washington Environmental Council & Washington Conservation Voters) at clifford@ctassociates.org if you have any questions regarding our positions on any bills affecting the environment, not just those found on the Hot List each week. The Hot List can also be found [here](#). Thank you.

House Floor Action

SUPPORT

Possible Floor Vote

ESHB 1282: Requiring environmental and labor reporting for public building construction and renovation material.

- Creates a database to help the state leverage its purchasing power in order to reward manufacturers and producers of climate smart building materials that support workers.

SUPPORT

Possible Floor Vote

HB 2250: Increasing representation and voter participation in local elections.

- Prevents electoral chaos by ensuring that RCV implementation is consistent across the state with best practices for RCV implementation based on decades of successful RCV elections across America.
- Helps towns and counties avoid costly lawsuits under the Washington Voting Rights Act by giving places an established avenue to upgrade to ranked-choice voting and improve local representation.

about the coalition

The Environmental Priorities Coalition is a network of over twenty-five leading environmental groups in Washington state that influence policy at the state level. For over a decade, the Coalition has selected joint priority issues to work on during legislative session to help focus environmental community resources and best achieve our shared goals.
