

WEEK 9: MARCH 9, 2026

# House HOT LIST

The Environmental Priorities Coalition is made up of 26 statewide environmental organizations working to safeguard Washington's environment and the health of our communities through policy and budget advocacy at the Washington State Legislature. During legislative session, we send you this weekly "Hot List" as a tool to easily identify environmental community priorities that are up for action in the coming week.

If you have any questions regarding our position on these bills or other bills affecting the environment, please reach out to state lobbyist Clifford Traisman at [clifford@ctassociates.org](mailto:clifford@ctassociates.org).

---

## House Floor Action

**SUPPORT**

Possible Floor Vote

### **HB 2301: Concerning extended producer responsibility requirements associated with paint.**

This bill would add more types of paint-related products to be recycled under the existing paint program. It is important for people to recycle paint products, rather than toss in the landfill.

**SUPPORT**

Possible Floor Vote

### **SB 6355: Concerning the electric transmission system.**

Strengthens the grid to support Washington's clean energy transition through creating a state transmission authority to facilitate new lines.
